To whom it may concern:

We are writing to confirm that Murshed SK was selected for and has been taking Qubit by Qubit's 2023-2024 *Introduction to Quantum Computing program* by The Coding School. This letter is also to acknowledge that Murshed SK received a full scholarship through the funding provided by Google Quantum AI. Qubit by Qubit's 2023-2024 *Introduction to Quantum Computing program* is a year-long program. Qubit by Qubit is an initiative of The Coding School, a WASC-accredited 501(c)3 nonprofit. Students utilize physics and linear algebra during the course and gain new skills such as coding on Google Colab. Murshed SK is currently enrolled in the program.

Sincerely,

Gabbie Meis

Program Manager
